EDUCATION

Imperial College London *Sep 2023 – Jun 2027*
MEng in Design Engineering, Predicted 2:1
Haberdashers' School for Girls *Sep 2016 – Jun 2023*
A-Levels: Mathematics [A*], Physics [A], Design and Technology [A]

EXPERIENCE

AirEmail **UK**
Design Engineer Intern *May 2026 - Sep 2026*
- Partnered with a cross-functional team across 10+ technical meetings, converting general summaries into action-focused records with clear owners and deadlines to keep delivery on track without a formal leadership role.
- Evaluated the end-to-end onboarding journey from the user's perspective, identifying 10 usability issues and turning them into an FAQ that addressed likely questions and friction points.
- Researched user and client needs through 20+ meetings with hospitals, healthcare organisations and start-ups, translating how requirements differ across stakeholder groups into insights for NHS and digital-health product decisions.

DiCro **UK**
Design Engineer Intern *Apr 2026 - Sep 2026*
- Redesigned and launched the full DiCro website in Webflow within 4 weeks, reworking information architecture, responsive layouts and end-to-end user journeys to make complex clinical research and regulatory services simple and clear.
- Researched 5 digital maternal-health products for client Matresa, analysing existing solutions to define the competitive landscape and inform design direction.
- Defined customer and business problems through 20+ client meetings with hospitals, healthcare organisations and start-ups across digital-health projects.

Dreamteam - My Imperial Campus App **UK**
UX/UI Designer *Apr 2025 – Jul 2026*
- Researched user needs through interviews with 20+ graduating students, surfacing pain points that guided design decisions and led to a smoother graduation experience and higher student satisfaction with the feature.
- Partnered with UI designers and engineers to take ideas from concept to development-ready designs, delivering 10+ Figma prototypes for usability testing that streamlined implementation and improved cross-team efficiency.

Amazon **UK**
University Engagement Program *Jun 2025 – Oct 2025*
- Selected for a competitive 9-week mentorship to design a women's health community app that connects women with shared health experiences and concerns.
- Led end-to-end UX/UI design and branding, translating the app's mission of empathy, trust and empowerment into a cohesive, user-centred experience.
- Improved usability and engagement by 40% across 5+ Figma iterations, using user research and customer feedback to refine accessibility, consistency and visual design.

PROJECTS

Scentinel, DESIRE Award **UK**
Industrial Design Engineering Project *Jan 2025 – Jun 2025*
- Won the DESIRE Award for Most Innovative Project (out of 25) by leading UX development of a smart diffuser system that protects bees from pests, designing intuitive interfaces through user-centred prototyping and customer testing.
- Interviewed professional beekeepers and experts to uncover user needs, using their feedback to prioritise features and iterate across 20+ design cycles.

CERTIFICATES

Google - Foundations of User Experience (UX) Design Certificate *Sep 2025*
Google - Foundations of Digital Marketing and E-Commerce Certificate *Sep 2025*

SKILLS

Design Software: Adobe Creative Suite, Figma, Blender, Fusion 360, KeyShot, Canva, Webflow
Programming languages: Python, C++, JavaScript, HTML, CSS
Languages: English (native), Cantonese (intermediate), Mandarin (beginner)
Other Skills: Microsoft Suite, CapCut
